New Dietitian & Diabetes Educator at Center for American Indian Resources

Hello! My name is LeeAnna Stock and I am brand-new to Fond du Lac! I have worked for St. Luke's Hospital for nearly 15 years in both the hospital and clinic in Duluth, and at the Mariner

Clinic in Superior, Wisconsin. As a member of the medical team, I have worked with numerous people with various conditions and/or diseases. My primary specialties are bariatric surgery and diabetes. I appreciate the exposure and experience that I have gained from working at the hospital, but I am very excited about this opportunity to be a part of the FDL team!

Registered Nurse Joins Diabetes Program at Min No Aya Win

Hello, my name is Gina Olson and I have worked for FDL Human Services for almost 7 years primarily as an RN handling same day appointments. I have grown up on Fond du Lac most of

my life, married and a mother of 5. I have an 18 year old that was diagnosed with Type 1 diabetes at the age of 6 here at Min No Aya Win by the diabetes team. His diagnosis is what made me decide to become a nurse, and spark my interest in helping others with diabetes. I am glad to have the chance to expand my role and work with the diabetes team.
